

## Current Job Opening Details

---

**Position:** Arborist Assistant

**Required Experience:** Minimum of 2 years experience in the tree and landscape industry. Candidate must be able to prove competency in basic tree care and landscape management knowledge.

**On-The-Job Training:** Yes. Candidate will train under an ISA Certified Arborist, ONLA Certified Master Technician, and/or other experienced personnel as required or until abilities are proven.

**Required Hours:** This is a full-time position and candidate will be required to work 36-40+ hours per week. Part-time hours can be considered. Inclement weather days may be optional for work.

**Starting Salary Range:** Negotiable and may be based more on work experience and/or knowledge.

**Description:** Candidate must be willing and able to perform physical outdoor labor, have a positive attitude, be willing to receive instruction, and be able to perform a wide array of tasks that may include the use of chemicals, fertilizers, and power equipment. Candidate needs to have and be able to prove prior knowledge of basic landscape and tree care management knowledge, skills, and training. Candidate must possess the ability to identify most common landscape plants and trees, proper pruning techniques, proper health management techniques, and the ability to safely operate chainsaws, stump grinders, chippers, etc. This position is an assistant's role, but with the hope and ability to become a technician/ supervisor role when abilities and knowledge are proven. Candidate will be encouraged to acquire an ODA pesticide license and to become an ONLA Certified Landscape Technician. No sales are involved, however, a professional appearance, honest and ethical manner is required. **A valid driver's license is a must and enhanced by a good driving record.** Advancement is **likely** and is **highly encouraged** if candidate so desires. Drug testing may be required.
